501CISO CYBERSECURITY TABLETOP EXERCISES

Build Cyber Readiness Through Real-World Simulation

An expert-facilitated tabletop exercise from 501CISO prepares your IT team to confidently detect, contain, and recover from cyber incidents. Designed specifically for nonprofit and association environments, these exercises test both technical controls and procedural response—without disruption to operations.

Key Benefits

Improve Technical Preparedness

- ♥ Validate logging, backups, identity controls, and containment steps
- ♥ Identify detection gaps and test real escalation procedures

Enhance Team Coordination

- ♥ Clarifies roles during active incidents
- ♥ Improves cross-team communication and decision-making under pressure

Expose Hidden Weaknesses

- ♥ Reveals process delays, unclear responsibilities, or missing playbooks
- ♥ Highlights misconfigurations and overlooked vulnerabilities

Actionable Outcomes

- ♥ Post-exercise report with learnings and key outcomes

Why Organizations Choose 501CISO

Nonprofit & Association Specialization: Exercises reflect your real systems (AMS, M365, Azure, donor databases) and threat landscape.

Expert Facilitation: Led by a CISO with 25+ years of cyber leadership and CISSP certification

Immediate Value: Teams walk away with clarity, confidence, and a path to improved resilience.

Exercise Format

| Feature | Details |
|--------------|----------------------------------------------|
| Duration | Typically 3 hours |
| Delivery | Remote or In-Person |
| Participants | IT & cybersecurity staff, MSP personnel |
| Output | Full findings report and remediation roadmap |

What to Expect During the Session

- ♥ Live scenario unfolds in stages
- ♥ Participants respond to triggers and decision points
- ♥ Facilitator guides discussion and highlights best practices
- ♥ Emphasis on both technical decisions and procedural response

Expected Outcomes

- ♥ Greater confidence in your team's response capabilities
- ♥ Identification of vulnerabilities before attackers exploit them
- ♥ Documented evidence of proactive cybersecurity governance
- ♥ A practical, prioritized improvement roadmap

Take the Next Step

A cybersecurity incident is inevitable—failure is not.

A 501CISO tabletop exercise ensures your IT team is ready to act decisively when it matters most.

Schedule your tabletop exercise today.
